

FROM THE STREET TO YOUR FRONT DOOR

Carry anything, anywhere - by bike

Breezaway is a bike trailer that becomes an indoor trolley. roll past traffic, through the lobby, up the stairs, and tuck it under your desk.

Join the pre-launch list →

See how it works →

Engineered for everyday life — groceries, work, parcels, weekends, and everything in between.

THE REAL PROBLEM

Carrying things by bike is the reason people still drive.

A backpack maxes out at a single grocery run. panniers wobble. cars sit in traffic and cost a small fortune to keep. so for the short trip — a market run, a coffee with a laptop, a parcel to the post office — most people pick the car anyway.

We built breezaway to remove that excuse, completely.

THE TRANSFORMATION

One product. Four ways to move.

Bike Mode
Hitch up and ride. suspension keeps cargo steady on cobbles and curbs.

Trolley Mode
Detach the hitch, raise the handle, and roll into any shop or lobby.

Stair Mode
Lift the caster arms — the two main wheels handle stairs effortlessly.

Folded
Collapses flat. lives under a desk, in a closet, or beside the bike.

OUR STORY

Where It All Started

Growing Up In Avalon, I Spent Weekends Scavenging Wheels And Building Billycarts With My Brothers. We Raced Them Down The Street, Hauled Things To The Beach, And Made Our Own Fun. Bike2Shoppa™ Is The Grown-Up Version Of That Same Instinct — Build Something Simple, Clever, And Useful That Makes Everyday Life Fun And Easy.

STAIR - ACCESS MODE

Deep-Dive Lifestyle Cards

Raise the small caster arms and the two main wheels take over-walk groceries, gear, or a parcel up a full flight without breaking stride.
